WHO WE ARE

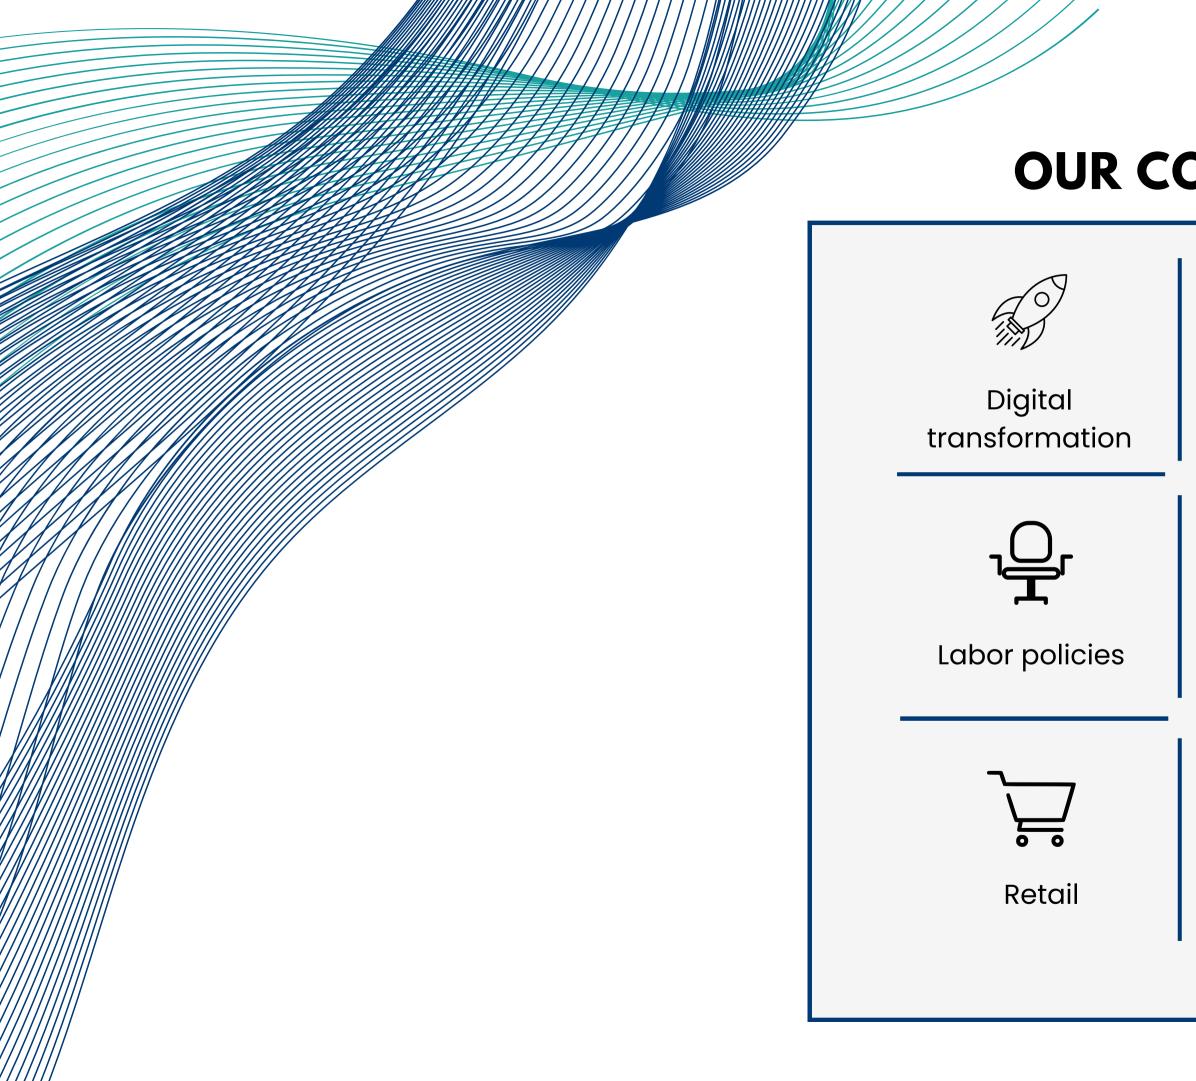

Adl Consulting S.r.I. SB, is a strategic consulting, public affairs, and institutional communication firm specializing in lobbying, advocacy, and political data management.

Since 2012, we have supported data driven decision-making in the sector, promoted the methodology of **#DigitalLobbying** with structured information and exceptional quality standards.

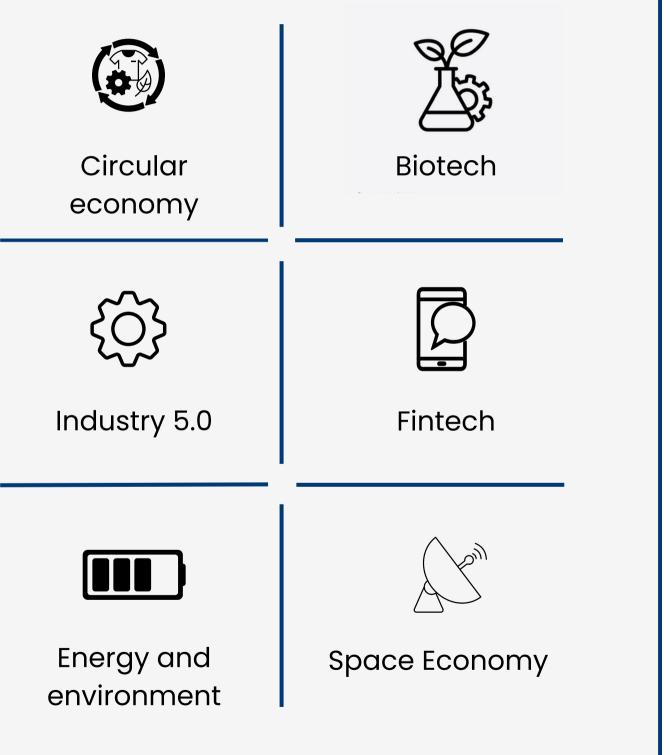

Additionally, our efforts have been focused on the creation of a greater awareness in the profession, through a concrete commitment in **advanced professional training.**

In April 2021, ADL Consulting revised its statutes to transition into a **Benefit Corporation**, actively participating in and advocating for the transformative changes impacting every sector of activity.

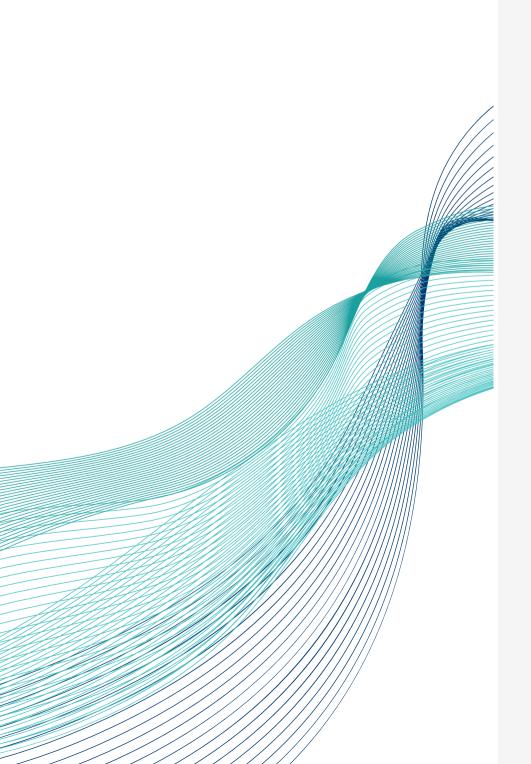

This initiative led to enhancing and broadening the scope of **Corporate Social Responsibility (CSR)** into the sphere of **institutional relations**. Corporate Political Responsibility (CPR) goes beyond and extends the concept of CSR, serving as a catalyst and an enabling factor for organizations aiming to establish authoritative positions with decisionmakers. It leverages an ethical commitment to transparency and the cultivation of a robust reputation.
